Fantastic school, in a great community. The teachers and support staff are absolutely brilliant. Best decision to send our children here, they absolutely love going to school and are thriving in such a positive and encouraging environment. I would highly recommend.

Both my children are at Antrobus Primary school and have been since pre school. They have always loved school and the wonderful friendly caring environment the staff create. All the children interact across the years and it's lovely to see how much they all care for each other and have fun together. The standard of teaching is excellent with teaching assistants and small class sizes. I couldn't recommend the school highly enough. My eldest is so sad to be leaving this year but already wants to come back and help with the younger children and still be involved with the school.

A great all round school. Fantastic teachers who really get to know your children and help them grow into fantastic students.

Superb school, great if you want to give your child a head start in education.

Nice and small class sizes mean that the children get more attention than they would in a larger school. This leads to them being ahead of the game when it comes to other pupils the same age elsewhere.

There's a nice 'family' feel to the school and the teachers are absolutely brilliant.

Moving my daughter to this school was the best decision i ever made. She was struggling with her work due to lack of support, therefore was suffering with low self confidence and anxiety. I couldn't read with her at home and it was adding to my anxiety, she hated the school she was in and i was devastated.

After careful consideration i realised i had to move her. After meeting with the staff Antrobus assured me they would give her the best support and that's exactly what she has received! Within only 6 months due to a smaller class, continuity, highly qualified staff, emotional support programmes and amazing amount of work & time they have put in with her, she is now working at the expected level of her age group and her confidence is soaring! I can't believe for a smaller school how much this school has to offer. I believe children deserve the best beginning of education & emotional support ready for their future, and children get exactly that and more at Antrobus Primary!

I have to say this is, for me, one of the best schools in the area! And i am very grateful they welcomed my daughter into their family.

Elsie adores coming to nursery! We were made to feel like part of the St Marks family straight away. All the team are friendly and inclusive, with a warm and caring attitude to each and every child and family. It is true Village school at the heart of the community and there is no where else we would wish our daughter to go to school.

Fabulous school with the best teachers and supportive community. Superb sporting opportunities having just won Vale Royal Small School Basketball Final and being placed 3rd for Football. Forest school, small class sizes and large grounds for outdoor learning and play! Top Marks all round!

Our daughter has received such a wonderful warm welcome into the nursery at Antrobus, from school teachers and children too.

My son started the pre school in September 2021. He was so shy and hesitant to go, but within no time at all he was absolutely loving going to school! He has progressed so much in just a few months and it's pure credit to the wonderful teachers and teaching assistants! Such a lovely school
